PROVINCIAL DIRECTORS: N. TREW ESS., R. D. J. C. DISTRE, Seq. IN SUPER ELLIOTT, Esq. J. K. SUTER, Esq. WILLIAM YOUNG, Esq.

Registered Office, Columbia Street

NEW WESTMINSTER.

The Fraser River Beet Sugar Company, (Limited), has been formed for the purpose of Manufacturing Sugar from Beets, to be grown on land acquired by the Company, consisting of rich alluvial soil well adapted for their growth

This land contains all the essentials necessary or the cultivation of the best description of Sugar Be.: being very rich in vegetable matter, and experience has shown that it is unexcelled for the purpose. Large tracts of equally shabile land can be had on very favorable terms; certainly not exceeding one tenth of the price of similar lands in California, and important consideration, as it will make a large difference in the amount of capital requires.

From experiments already made on the land, the yield was found to be equal, if not superior to that from land cultivated in the most favored localities on the most improved principles.

was found to be equal, so the most improved principles.

The percentage of Saccharine matter, according to published records of European cultivators, gives 8 to 9 per cent. as the average; whereas, in the Fraser Valley, the per centage was 10 to 11; six-tenths being granulated sugar of very fine quality, and the remainder molasses of fine flavor, a result unknown elsewhere.

This being the result on new land, and with the most imperfect appliances, it will be readily understood, that with a proper system of cultivation, and with proper machinery, the profits of the company will be very large. machinery, the profits of the company will be very large.

The quantity of sugar imported into this Province for the year ending June 30th, 1872, was valued at over \$100,000; the importation of Molasses, during the same period, amounted to \$18,000. It will, therefore, be seen that a ready market is open for all the sugar and molasses the company can produce. The pulpe or refuse, composes the best kind of food for fattening cattle during the winter months, when the highest prices are obtained for beef, mutton, &c.

The bost of labor, it is calculated, will be as low as in California, while the fuel and other materials, including the lumber for building, will be much lower.

As the company proposes to commence operations on a limited scale at first, the Capital Steck has been fixed at \$50,000, while power is reserved to the Sharchelders to increase the working capital to \$100,000, if considered advisable.

Avisable.

EX"DELAWARE FROM HONOLULU.

No. 1 SUGARS

FOR SALE BY SINE BIT W

LOWE. STAHLSCHMIDT & CO.

The persistent misrepresentations of the Colonist must sooner or later draw down upon the head of their author merited retri-bution. I is impossible that deliberate and studied falsehood can be daily paraded bewill prove beneficial to the country, the afore an intelligent community without arousing a feeling of public indignation against what can only be viewed as an outrage upon norality and a blot upon the fair fame of the heality in which it is permitted to circulate. We cannot what the motive may be which prompts such a course, because only a bad, vindictive motive could possibly suggest at the motive to circulate the motive of the heality is a course, because only a bad, vindictive motive could possibly suggest at the motive could be motive. Assembly is motordingly processed to depend upon such indeed, which is forced to depend upon such Ta questionable method of accomplishing its a very large stock of Canadian Twe da and County was received by Turner, and the door the Colonial sursue this line of Beeton & Tunstall. The Tweeds are of ex-Attailed misrepresentation To There is but one that died misrepresentation to weaken the power and influence of the Government, and to out one the distriction of the on former occasions observed, we have no deshifection to degratimate opposition to the policy of the Government; but when it feels itself compelled to resort to a species of low. Teckless, and ribald falsehood to damage the character of the Government, the effect of such a pelicy can only result in weakening the hands of those when it is meant to injure. The Colonist, in its anxiety to injure the Government, has not scrupled to libel whole communities by representing them as in a state of lawlessness and anarchy, setting the constituted authorities at defines, and consequently no safety or usecurity for persons or property where this contact of affairs is said to exist. Such was the case with regard to Nansimo, and also to accepted. the case with regard to Nanaimo, and also to the case with regard to Nanaimo, and also to Comox, greatly to the annoyance of respectable people in both these localities. And what were the grounds upon which these calumnies were scattered broadcast over the country, and even beyond it? Why, in the one case a couple of drunken sailors had conducted themselves in a disorderly manner a in a saloon at Nanaimo, and in the other case a poor old Indian was found dead upon the beach at Comox, having been drowned by beach at Comox, having been drowned by the upsetting of his canue. It is true, just about the time the Indian's body was found, about the time the Indian's body was found, a few Indians at Comox had succeeded in obtaining a supply of whisky and got gloriously drunk; but they in no way interfered with the white settlers, nor were they guilty of any other act of lawlessness. Yesterday we had to chronicle a serious row that took lace among a few Indians on Wednesday has, at Chemainus, which we regret to say resulted in the death of two natives, and injury to one or two others. This unfortunate circumstance is, like all tunate circumstance is, like all other disturbances among the natives, directly attributable to drunkenness, and this the Colonist declares to be the fault of the Government in having withdrawn its protection from the east coast. As a matter of fact the east coast settlements are just as fully protected, and even more so, by the Governmen to day than they ever were, and to assert that there is any more drunkenness among the natives now than there has ever been, is to state that which is totally natrue. None more than the Government regret these un-fortunate occurrences, but to hold them rebroundle occurrences, but to noid them reconstables on the east coast," is both abaurd and unjust. None knows better than
the Colonist that in this city, where there is
an efficient police organization, and the utmost vigilance used to prevent whisky selling
to the Indians, there is really more liquor
sold and more drankencess among the acmost vigilance used to prevent whisky selling to the Indians, there is really more liquor sold and more drunkeness among the nactives, than in any other part of the Prevince. work to the amount of ope-half the contract work to the amount of \$200 for section No. 1; S200 for section No. 2; \$200 for section No. 2; \$200 for section No. farious traffic bas been futile. The evil, o course, has been greatly mitigated, but it is certainly no more the fault of the Govern-ment that it has not been effectually stopped, than it is that in various other ways evilthan it is that in various other ways evildisposed persons set the law at defiance.

Were the misrepresentations and exaggerated
statements of our contemporary confined to
the limits of this Province, they would only
pass for what they are worth, as the people
know just what value to put upon them. But
at a distance those who read them may attach more importance to them than they detach more importance to them than they detace only in the result be anything but advantageous to the interests of the country. In
the eastern provinces, for instance, there has
recently sprung up a very general feeling of
inquiry concerning British Columbia, its climate, resources, etc., with a view to amigrating to this country and settling therein. grating to this country and actiling therein.
But when they come to read articles in the
columns of a local journal with headings
and statements such as these: "A feerful HO Color of the State of the St coings on between the Indians, who cars drunk and cutting and slashing night, and the state of day, 'IT 'Lilloset left without protection,' he bias to end uresteen where it was stated by the state of the state of

where? And why this wicked system of misrepresentation? For the sole purpose of tradesing the character of the Government, and weakening their influence throughout the country. We leave our readers and a thoughtful public to form their own conclusiens as to the propriety of such a course of procedure. We have no objection to a fair, dignified opposition to the policy of the Government; but such wholesale misrepresentation must sooner or later bring its legitimate reward, and draw down upon its author the centempt of every individual who has at heart the welfare and prosperity of the Ontario Legislature.

THE PROROGATION SPEECH.

The Lieutenant-Governor delivered the following Speech:
"Gentlemen of the Legislative Assembly:-In releasing you from your legislative labors in the Assembly, I have to thank you for the diligence and devotion which have marked the discharge of your arduous duties during the session, and for the promptitude and care with which you have dealt with the many important matters which have come before

> "I thank you for the liberal supplies which you have granted for the services of the year, and I feel convinced that they will tend to promote the several objects which you have intended to secure.

I have had much satisfaction in giving my assent to the bill for placing on a satisfactory footing the debts owing by certain municipalities to the Municipal Loan Fund, and for, at the same time, doing justice to the rest of the Province; and I trust that the settlement of this long-vexed and complicated question will conduce to the increased prosperity of the various municipalities inte-

"The aid which you have extended to railway enterprises and to drainage, and your senewed efforts to secure an increased emigration, will, I am convinced, benefit all sections of the country.

do not doubt will prove advantageous in promoting the public good.

"In taking my leave of you, I desire to express my conviction that the result of you. Inbors during the session will show that your deliberations have been governed by wisdom and prudence, and my conviction that the measures which have received your approval

The extreme wetness of the season bad Friday, April 25th, 1873 caused a partial failure of the potate crop. and that, with the great dearth of fuel, had made them towards the close of the summer look forward very anxiously to see what the winter would bring forth. In former years circumstances like those could have led to very serious disasters in that country—to famine and pestilence and a heavy death-rate. In 1847 the mortality in the workhouses was at the rate of 25 per 3 A O To-day, March 8th, His Honor prorogued 1,000. He was happy to say that, though he the House with the usual ceremeny. There had watched with anxiety the Poor Law rewere 2,240 more inmates of the workhouse Wells, Fargo & Co., were towarts of a porvently state the casts of alligiance, to east down Parrolle's property, which was menter for very considerable for a British American union as expressed in the control of the was prepared in the property of the pr The speech gave much satisfaction. Especial reference was made therein to Her Majesty's deaire for a British American union as extellers on San Juan Island, who would take the oath of allegiance, to enter thou of John Parrott's property, which was pressed in one of the Queen's speeches from He thought that was matter for very consider-The speech gave much satisfaction. Especial and 2,854 more recipients of outdoor relief reference was made therein to Her Majesty's than there were last year; but the rate of mordesire for a Bitish American union as extality in the workhouses was only 6 per 1,000. voie enterprise. It is next to certain that some steam vessel, larger than the Douglas, when more power, greater speed, more accommodation for passengers, and suitable to go in expeditions to the east and west or northy in any weather, will be ordered by the Dominion Government for British Columbia.

Your Premier, I understand, brought the matter under the notice of the Government, and suitable to go instalments the sum of \$126,533 33. For matter under the notice of the Government, suddent states and west or continue weekly matter under the notice of the Government, suddent states and west or northy for passengers, and suitable to go in the Allan steamable contract for the continue of the Government for British Columbia, suddent states and west or northy for passengers, and suitable to go the Allan steamable contract for the continue of the Government for British Columbia, suddent states and west or northy for passengers, and suitable to go the Allan steamable contract for the continue of the Government for British Columbia, suddent states and west or northy for passengers, and suitable to go the Allan steamable contract for the continue of the Local Government of the Clock of an anticology of the Allan steamable contract for the contrac purposes, without making use of the cum-brous and expensive machinery formerly required. He was glad to learn that the large city of Beltast had through its Corporation asked for a provisional order from the Local Government Board to enable it to borrow a

> "I have, I am afraid, touched on many dry and uninteresting subjects. I have not touched upon any subject of political excitements or importance; but I think I have referred to several matters which bear materially on the prosperity of this country. I am not the one to complain that the year 1872 has been devoid of excitement, especially political, in-Ireland. I think that nations, like individuals, are often better for periods of compari-tive rest and quiet. I think too often Ireland has had to complain of a different state of things, and, therefore, as one who has been to a great extent responsible for some of the government of this country, I am not here to complain that there have been incidents of ex-citement during the year 1872. But, when I look back to 1872, I must admit that there are certain clouds which remind us that we are not altogether in a perfectly smooth sea.
> We have difficulties to contend with; we have
> great improvements to carry out. One cloud,
> somewhat is the northern part of this kingdom I still remember, which caused her great anxiety, and which caused those who were nearly connected with

large sum of money to be laid out in the im-provement of the city. His Excellency con-

it still greater anxiety. I refer to those melaucholy circumstances which brought upon Belfast very serious disasters during the month of August. We had flattered ourselves that those unfortunate dissensions which too often have tern parties as under and turned friends into foes—we had hoped that those religious contentions had died away to a great extent in this country. Unfortunately we found from experience in August that they still remained there, and could be fanned into a flame of very serious dimensions. I only refer to this incidentally to show that we must still keep a careful eye on different grievances which have at different times prevailed in this country. Serious re-sponsibilities are first of all thrown on the magistrates and those who lead public opi in that city. They have to show a good example, and try to put an end to that ill feeling which comes from old tradition which now, I

Railway Speed in England.

It is often stated that the average rate rows of the slave trade may be seen from the failway speed in England is very much fast following fact to Capt. Malcolm's boats seized than in the United States. Some say it is a Zanzibar, a slaver which was about to laud British Engineer, a standard publication, gives the United Kingdom, and it shows that the Stock belonging to the therefore, made a shorter journey than from greatest average speed is on the Great Wes-Rotterdam to London. Nevertheless, these term line, of 51 miles per hour for 181 miles; Restricted to London. Nevertheless, share seventy-two shares were sell that was left of a cargo of seventy-two which the vessel had taken in."

PROSPECTUS

OF THE

PROVISIONAL DIRECTORS:

BANKERS :

BANK OF BRITISH COLUMBIA.

THE COMPANY IS FORMED FOR

and soot and some factorings and the same.

The purchase would include the Land, Buildings, Machinery; Plant, Stock-in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Fractory is well arranged, and is fitted with the

ost approved Machinery.
The Tannery has every appliance for the saving o

manufictured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is therefore, not unreasonable to assume that the ad-vantages which the prosecution of such a reproductive institution insures will, aside from the remunerative character of the business, have due weight with all who are in any way interested in the prosperity of the Pro-

vince.

It should be remarked that this company will become
at once possessed of two businesses with established
connections, without any interruption to working or
loss of time in transfer, and will therefore have from the

loss of time in transfer, and will therefore have from the first day of its possession a revenue from a business which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and in the United States.

The transfer of the property to the Company will only be made upon terms satisfactory to the Provisional Board of Directors, based upon the valuation. The purchase will be effected to a large extent in shares retained by the present proprietor, a portion of which will not participate in any profit until a dividend of 10 per cent. has first been paid to the new shareholders.

Applications for shares may be made to the Secretary profess., the Bank of British Columbia, or to Messra. Brake & Jackson.

> of all kinds for sale by the BOTTLE, GALLON, BARREL OR CASE. Nassau Seltz Water PULNA MINERAL BITTER WATER. JOUVENCE WATER. J. P. FITERRE, Agent.

The Tannery has every appliance for the saving of [abor.]
The Water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be increased to ten times its present power, if at any fime required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and Mr. Switzer's services as Manager of the Works will be retained upon terms favorable to the Company.
The Land consists of 548 ares, known as the Spring Vale Estate, some of which is of excellent quality.
The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.
The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.
The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article.

The sales for 1872 amounted to possity \$50.000 which FROM HONOLULU 100 Kegs Extra No. 3 SUGAR. No. 1 No. 1 No. 2 For sale by

beat in the Province, about 150 Acres in co oacre under fence. A first rate dwelling bouse, ut houses, &c. with all the re-not improvements iars apply to H. F. HEISTERMAN Vic Or to A. G. HORNE, Comox.

persition, shows the favor with which the products have been received.

The importations of Boots and Shoes as declared at the Custom' House for the year 1871, was about \$100,000, representing a selling value, after adding duties, etc., of any \$150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the miss of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaktion. WILD LAND TAX. TOTICE IS HEREBY GIVEN, that the COFFIN infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of Hides, the outturn will be sufficient for the supply of the general demand for harness, mill belting, &c , in addition to the requirements of the Boot Factory.

The Belmont Boot and Shoe Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realised.

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into Boots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported.) the saving to necessary forms for filling in informa-tion required under the "Land Tax Act, 1873," can be obtained at the different Post Offices of the several Districts of Victoria, Esquimalt Town, Esquimalt, Metchosia, Sooke, Lake, and Sasnich.
